

# REASON 5: GROWING TOGETHER

**BREVANT**  
seeds

## WE'RE DESIGNED TO GROW WITH AG RETAIL.

At the end of the day, ag retail is why Brevant® seeds exist. And you can be darn sure we're doing as much to help you grow as we're doing for ourselves.

### DRIVE GROWTH

Corteva Agriscience intentionally built Brevant seeds to support the unique needs of retail for the long term. Which is why the status quo won't be the status quo much longer.

### WE'RE AGILE

Adding Brevant seeds to your lineup will help enhance your offering to your customers. Our retail partners have unique strategies, so we are designed to be agile and to adapt your specific business growth.

### MOMENTUM

No other seed brand within Corteva is growing at the rate of Brevant seeds, and we're not doing that with second-class products. We will keep gaining momentum with you and your customers as retail's fastest-growing major seed brand in the United States.

### BUCKING THE STATUS QUO

We are giving our full attention to ag retail so we can deliver an experience beyond the status quo. Our retail segmentation strategy allows us to focus on you to build trust and accountability. We are mutually invested in your success and growth.

Like we said from the beginning, we're here for ag retail. And we're ready to kick some tail. Your RPA will be reaching out to make sure we're doing everything you need us to do so we can sell together and buck the status quo.
